

# M Ikbal Tawakal

## Front End Engineer

I was worked in F&B Industry and now I shift my career to Front End Engineer. I passed the Alterra Academy Immersive bootcamp for 3 months and learn many things about UI/UX Design and Front End Engineering such as ReactJS & NextJS framework, HTML, CSS, and Tailwind. I have created projects like E-Commerce, Social Media App and Realtime Location Chat App . Until now I've created around 4 UI web designs and 11 web projects : 2 React projects and 3 Next projects with backend integration and 7 web projects based on HTML,CSS and Javascript. I have a high interest in IT, especially Front-End Engineering and enjoy my time to develop and keep learning more technology to come.
